Health Check Your Business the Interim Way

A Good Time for a Business Checkup

November 2011

You can do it yourself using some tools of the Interim Executive

Many businesses including smaller ones have had to go through a number of changes and adjustments over the last 2 years. Whether the future is bright or less so it seems certain that the next 6 months will

Take a glimpse into the Interim Executives tool box

or Get some Professional help

Some of the techniques Interim Executives use to get to the diagnose businesses quickly are not easy to do by someone inside the business. Most of the time it is because either they feel they may have raised the issue before, or because they do not want to "rock the boat".

Business Transformers Ltd can offer a half day chat and an initial review

Confusing Times

The economic indicators continue to be confusing, 0.5% growth is better than expected for the last quarter, however the Purchasing Managers Index for October dropped below 50 to 47.4. Anything below 50 indicates that Purchasing managers are seeing less activity and therefore business is shrinking.
